About Weir Oil & Gas

About Weir Oil & Gas

Known for its superior products and service solutions, Weir Oil & Gas is committed to helping upstream customers improve the efficiency of their operations. In fact, more people choose our pressure-pumping solutions than any other company in the world.

We provide well-service and stimulation pumps, flow control products, and replacement expendable parts through numerous leading brands, including SPM, Mesa and Novatech. Our pressure-control solutions include other trusted brands, like Seaboard, which provides wellheads, valves and frac trees; and Mathena, which delivers drilling mud-gas separation equipment, including chokes, separators, and environmental-containment equipment. Supporting services for both pressure pumping and pressure control equipment is provided through our extensive service network located in key basins around the world.

We also provide engineered mechanical and rotating equipment repairs and upgrades, oilfield and drilling equipment repair and certification, rapid prototyping of spare parts, robust asset management and field engineering services—delivered globally by EMEA Services based in Dubai, UAE.

The Weir Group PLC

Founded in 1871, The Weir Group PLC is one of the world's leading engineering businesses. We design, manufacture, and service innovative solutions for minerals, oil and gas, power and other process markets.

Working closely with our customers, we strive to deliver products and services that improve efficiency and lower operating costs in the mining, oil and gas, power, and industrial markets. With a worldwide network of approximately 200 manufacturing and service facilities, Weir employs over 14,000 people in more than 70 countries. Our goal is to be our customers' partner of choice.
